

Stainless

SS98

FEATURES

PERFORMANCE

- High output daily ice rate of up to 25 lbs and storage of up to 25 lbs of crescent ice (1/2" W x 3/4" H x 2-1/2" L)
- Conserves energy by using less electricity than a 75-watt light bulb
- Uses under 3 gallons of water to produce 25 lbs of ice
- No drain required makes it easy and inexpensive to install and requires only a 1/4" outside diameter water line
- Manual defrost maximizes ice making potential
- 220 volt model available with a 4 – 6 week order lead time

INTERIOR / EXTERIOR

- Stainless steel cabinet helps withstand tough marine environments
- Corrosion resistant marine grade hardware provide better product longevity in harsh environments
- Aluminum framed door with stainless steel panel and durable aluminum handle weathers outdoor elements
- Travel pin included for optimized, hygienic and safe at-sea travel and storage

INTEGRATION

- Can be built-in or freestanding
- Field reversible door with zero clearance door swing simplifies installation
- Will accept a 1/4" insert panel
- No additional clearance around sides, top or rear of unit is needed for ventilation
- Sleek and contemporary look provides a very clean, high-end aesthetic
- Do not obstruct front grille air flow
- For proper installation and cut-out dimensions, see backside for details

SS98 Stainless Model

* Add 1-1/2" for water line clearance

DIMENSIONS AND SPECIFICATIONS

OVERALL DIMENSIONS

Height	27-3/8" (67.6)
Width	14-15/16" (37.8)
Depth	20" (50.8)

Shipping weight:

Black and white models	76 lbs (34.5 kg)
------------------------	------------------

Running amps	2.5
Maximum start-up amps	18.0
Amps pertain to voltage rating	110/115 volt, 60 Hz
Approximate daily ice production	Up to 25 lbs
Ice storage	Up to 25 lbs

Optional in 220/230 voltage, 50/60 Hz
On the 220/230 volt models, amps are decreased by approximately 50 percent.
