

Water Pressure System - Aqua Jet Duo

Product Type:
WITH PRESSURE TANK

This high demand unit consists of two parallel connected Aqua Jet WPS five-chamber diaphragm pumps integrated with a pre-pressurised 2 liters accumulator tank and inline strainer. The unit's design allows for either vertical or horizontal installation.

Features

This high demand unit consists of two parallel connected Aqua Jet WPS five-chamber diaphragm pumps integrated with a pre-pressurised 2 liters accumulator tank and inline strainer. The unit's design allows for either vertical or horizontal installation.

Features

- Whisper quiet operation
- Five-chamber construction
- Smooth flowing
- Self-priming
- Easy, low cost maintenance
- Quick-connect hose
- Integrated pressure switch
- Long service life

Technical Data

Pump body:	Polypropylene
Valve housing:	Polypropylene
Valves:	Santoprene
Connection:	3/8" BSP or 1/2" hose (ø 13 mm) 1/2" BSP or 3/4" hose (ø 18 mm)
Accumulator tank:	Corrosion protected tank with internal rubber bladder Capacity – 2 liters Precharge pressure – 0.8 bar Air valve – standard tire valve
